Causes Paralysis

A Uric-O Treatment Will in All Cases Remove the Cause:

Paralysis is a disease whose cause is previous to the attack, the patient suf-fered from some form of rheumatism. Possibly like so many others, he thought it was only a slight matter of temporary inconvenience and paid no further attention to it. Rheumatism is not to be neglected with impunity. The Uric and poisonous Rheumatic Acid must be neutralized and driven from the system as soon as they put in an apeparance. Do

Liverpool's Advance.

In the course of time Liverpool must supersede London, points out a Manchester paper. Everything is against the latter, and its supremacy has only been retained by artificiality. If England has been discovered at the same time as America, Liverpool would inevitably have become the capital. Commercially, according to the same authority, it is slowly but surely ousting London.

ALLIGATORS SCARCE.

The Demand Por Their Skins Has Nearly Exterminated Them. "An alligator is a rare thing in the

outhern states now," said C. B. Bunge of Pennacola, Fia.

"Where they could be seen in bundreds ten years ago, dotting the banks of the rivers and swimming in the Florida swamps, the sight is now begreat demand for their skins has practically exterminated the creatures, and they will soon be as scarce as the western buffalo. Some may still be found in the Everglades and other swamps, but they are rarely seen, as they live in mudholes to which even the Seminoles cannot gain access.

Mrs. Frank Jones of 80 South Main street, Barre, Vt., says: "About five years ago I had such an awful pain in my back that I could hardly get around the house. If I arose quickly after stooping I had spells of dizziness and dark spots before my eyes, while at night it was almost impossible for me to sleep, I was so restless. One day the Seminoles cannot gain access. ming a very uncommon one. The

"The few that are captured caught by means of strategy, as the open water shooting is a thing of the past. A strict watch is kept over their holes, and the moment the gator appears he is lassoed and dragged bodily from his home. It is a very dangerous method while in the water, and it requires the combined force of a dozen men to drag an eight foot alligator to the mainland. Even when this is done the captors are wary, as a blow from the creature's tall would seriously disable the stoutest man.

"An alligator is slow and clumsy in his movements, but can swing his tail around in the twinkling of the eye. The Indians generally wait until they Italiani Assicuratevi per tempo il vi- have the animal in a position where he cannot use his tall and then sever the ligaments with a well directed blow of their sharp instruments. The government has taken the bounty off the alligators, which in former years was a great source of revenue to the shiftless Crackers that inhabit the swamps and make their living in the easiest possible manner. The price of the skins has become double what it was a few years ago, and it will not be long before the dealers will have to find some substitute for the skin of the alligator."-Milwaukee Sentinel.

Ball Player's Hard Finish.

The ending of a ball player's career has in it much the same tragedy that accompanies the loss of voice by the sluger. At one fell swoop the player and his family drop comparative luxury, ease and the ability to have all the ordinary pleasures of life and fall to something like actual poverty. Oftentimes poverty is encountered before the end of the struggle is reached. The still young couple, after several years of good living, traveling, seeing the world and enjoying all the fun in sight, suddenly come with a splash to the ley water of poor living, poor clothes, lnability to pay for theater tickets and trips about and inability perhaps to much more than pay the rent of a small flat, for the ball player who has never done anything but play ball and who has not saved his money is against a hard proposition before be can learn a trade or find something to carry him safely along.-Brockton En

An Active Liver for a sluggish one, A Sweet Breath for a bad one, A Strong Stomach for a weak one, Rosy Cheeks for pale ones,

Would You Trade?

One at Night-O. K. Next Morning.

Keeps the stomach sweet, the liver active, cleanaes the bowels, robs digestion of its terror, fits you for strong physical or mental labor.

Would you trade twenty-five cents for health? That yellow look for a rosy hus? Then go to your druggist, trade 25s for a bottle of "Virginia Velets." Take one tonight and you will be O. K. in the morning. Then if you could not get another bottle of "Virginia Velets" for 25c, you would not trade your bottle for \$25.

This is the only remedy ever discovered for constipation and liver troubles that does not cause the nightly pill habit. Unlike all other remedies for constipation, the oftener you use "Virginia Velveta," the less you have to use. It is not necessary to go on using them forever and in increasing doses. It is the safest, surest, smoothest remedy for constipation ever discovered. No wonder it has been named "Velvets" by those who know. If you should be the one exception and not like them, you can take your bottle back to your druggist and he will refund your money. "Virginia Velvets" are guaranteed by the manufacturers.

ASK YOUR DRUGGIST FIRST. If he will not accommodate you, we will. Price 25c per bottle. Sent postpaid to any address on receipt of price.
